AI, Data & Reporting: ChatGPT, Claude, SQL, Python, Tableau, BigQuery, keyword research, data quality, and campaign performance reporting

Web & Workflow Automation: HTML/CSS, JavaScript, Zapier, Figma, Xcode, API integrations, secure CloudPage development, input and data validation, and campaign QA

PROFESSIONAL EXPERIENCE

Marketing Automation Specialist

Select Health | Salt Lake City, UT | May 2025 – Present

- Designed and launched an SFMC event registration system integrating CloudPages, Salesforce CRM, and Journey Builder, driving 1,400 registrations from 4,700 invitees (30%) and now scaling to additional marketing events.
- Own end-to-end SFMC email campaigns for non-member, Scripus, and Small Business Accounts (SBA) audiences, managing campaign builds, A/B testing, QA, and deployment while developing team-wide email templates.
- Build secure Salesforce-connected CloudPages with encrypted parameters, server-side validation, and anti-spoofing controls; use ChatGPT and Claude selectively for debugging and code review.
- Created and maintain an email-linked CloudPage supporting growth in paperless enrollment from 0 to approximately 160,000 members.
- Developed an organization-wide two-click member feedback module supporting CMS Star Ratings initiatives, embedded across all member communications; collected ~2,600 responses reviewed weekly, surfacing insights that informed process improvements.

Marketing & Automation Specialist

Pocket Coach/986 Productions | Salt Lake City, UT | August 2024 – January 2026 (Part-time)

- Grew an Instagram audience by 230% to 50,000+ followers by using keyword research, performance data, and AI-assisted content development to improve organic reach and engagement.
- Designed and automated lead flow processes using Zapier, resulting in a 25% increase in email marketing ROI.
- Developed the Pocket Coach iOS app from scratch in Xcode, designing the architecture, building and debugging features, integrating APIs, and refining the UI.

Marketing Operations Analyst

Mimecast | Lexington, MA | April 2022 – February 2024

- Increased lead conversion rates from 18% to 25% by optimizing Salesforce and marketing automation workflows, lead qualification, and automated routing processes.
- Improved lead-to-account matching from 64% to 78% and increased sales-qualified lead velocity by refining matching logic and workflows.
- Developed a Python-based scraper to validate and enrich Salesforce records against external sources, improving CRM data accuracy by 20%.
- Built Salesforce reports and dashboards and used Tableau to analyze campaign performance, pipeline trends, sales KPIs, and forecasting insights.

EDUCATION

Bachelor of Science in Information Science, Minor in Business Analytics

University of Colorado Boulder | Boulder, CO | 2021

Additional Experience: Xcode/iOS side projects; outdoor retail & ski bootfitting across ski, apparel, and footwear.
