PROFESSIONAL EXPERIENCE

Marketing Automation Specialist

Select Health | Salt Lake City, UT | March 2025 – Present

- Support digital communication programs for approximately 160,000 members enrolled in paperless communications, helping expand digital engagement and reduce reliance on print.
- Own email communications for non-member, Scripus, and Small Business Accounts (SBA) audiences, overseeing campaign build, QA, deployment, and stakeholder coordination.
- Designed and built a Salesforce Marketing Cloud event registration system from scratch, connecting personalized email links, CloudPages, Salesforce CRM contact/license data, campaigns, and Journey Builder to automate seminar eligibility, registration, attendee tracking, confirmations, reminders, capacity limits, and calendar links.
- Developed an organization-wide member feedback module for digital communications, enabling two-click feedback collection to support member experience and Stars score improvement initiatives.
- Improved campaign intake and QA processes by creating clearer request guidelines and required data standards, reducing back-and-forth communication and saving time for marketing, compliance, and stakeholder teams.

Marketing & Automation Specialist

Pocket Coach/986 Productions | Salt Lake City, UT | August 2024 – January 2026

- Grew Instagram audience by 230%, reaching 50,000+ followers through data-driven content strategy, audience engagement, and performance analysis.
- Improved email marketing performance by designing and automating lead flow processes using Zapier, contributing to a 25% increase in email marketing ROI.

Marketing Operations Analyst

Mimecast | Lexington, MA | April 2022 – February 2024

- Increased lead conversion rates from 18% to 25% by optimizing Salesforce and marketing automation workflows and automating lead routing processes.
- Improved lead-to-account matching from 64% to 78% and optimized sales-qualified lead velocity through data-driven workflow improvements.
- Improved CRM data accuracy by 20% by developing a Python-based scraper to validate and enrich records against external sources.
- Supported territory management and sales operations for a 200-member sales team by implementing Full Circle, Cognism, and Dun & Bradstreet.
- Built Salesforce reports and dashboards and used Tableau to analyze campaign performance, pipeline trends, sales KPIs, and forecasting insights.

EDUCATION

Bachelor of Science in Information Science, Minor in Business Analytics

University of Colorado Boulder | Boulder, CO
